

## **Beautopia™ Elevates Your Beauty**

Consumers technically do not buy “beauty,” they buy results – a solution to the endless anti-aging challenge they perceive themselves to have. Everyone possesses beauty, we need products to nourish and elevate. These results can be achieved with the Beautopia product range: efficacy, common sense proven products to enhance beauty, anti-aging focused, natural with scientific merit, beneficial, results oriented daily care. Beautopia™ offers affordably priced products, consumer centric, and dermatologist formulated, packaged especially to simplify your daily regimen to create a younger, hydrated appearance, and prevent the signs of aging.

Available either individually or packaged together for all ages and ethnicity, all skin types, the products when used in combination combat puffy eyes, dark circles, hydrate, minimize fine lines and wrinkles, renew elasticity and address sagging skin, as well as offer wrinkle and deep line relief. They offer utopia for demonstrating your outer beauty, resulting in moisturized, silky, soft, smooth, uniform and enriched skin.

Products, when used daily, ideally should be from one manufacturing company and brand for common formulation denominators, to ensure they work synergistically, and offer balance to work in conjunction with the ingredients in each. For this reason, Beautopia™ has created three (3) sets of daily regimens – Rewinding Skin Series A and Series B, and for masking and rectifying deep lines and wrinkles, the ever popular “Wrinkle Wrecker Kit”. These sets are available through on-line re-sellers like Walgreens.com and drugstore.com, and at [www.beautopia.com](http://www.beautopia.com).
